

# Comprehensive 'On Farm' Storage Solutions

## REALISING YOUR DREAMS

Smart growers have realised that the way to maximise profits is to store their grain on farm and sell when market conditions are favourable. Grainmaster bunkers and sheds assist by offering the grower a choice of storage solutions that are secure and cost effective.

## EXPERT ADVISE

Our team of experts have over 25 years experience in the design and fabrication of agricultural sheds and bunkers. Further we have representatives available who have decades of experience in the commercial and on farm storage of grain and can assist with fumigation and monitoring of the grain to ensure maximum tons are available for sale at the growers discretion. It really is a complete service!

At Grainmasters we take the guess-work of grain storage, delivering maximum profits from your harvest.

## BUNKER OPTIONS

Bunkers are usually designed in configurations of 25 or 30 meters in width and length options in graduations of 50 meters. Our most popular bunker is the 25 x100m option delivering a storage capacity of 5780t of wheat!

The dimensions of your new bunker will be determined in part by two factors, that is, the size of your auger and the storage capacity you require. Smaller augers can service bunkers up to 25m in width, while a bunker 30m or wider will require a larger auger eg 95ft.

## NOT JUST FOR GRAIN!

Grainmaster bunkers are a cost effective way to store any material in bulk, even hazardous materials. We currently have bunkers in mines and feedlots all over Australia.

## SERVICES WE OFFER!

We can assist with the location of bunkers or sheds on farm, earthworks (if required), supply of tarps, supply of quality augers and belt drives, organise freight and erection.

We offer a complete grain storage solution service, from the filling of the bunker or shed to the sale of your grain off farm.

With just one phone call your whole "on farm" storage plan can be implemented.

Call us today for a free quotation and free assistance with the design of our bunker.

## UNBEATABLE VALUE!

Our research confirms that Grainmaster bunkers offer superior value for money compared to other storage systems, as this table shows.

Dimensions	Capacity (t) Wheat	Price per ton per yr over 3 yrs	Price per ton per yr over 6 yrs
25 x 50	2990	\$5.22	\$2.61
25 x 100	5780	\$5.40	\$2.70
25 x 150	8910	\$5.25	\$2.65
25x 200	12040	\$5.18	\$2.59
30 x 50	3700	\$4.64	\$2.32
30 x 100	8840	\$3.88	\$1.94
30 x 150	14000	\$3.68	\$1.84
30 x 200	19150	\$3.59	\$1.79

As the table above shows, a per ton cost over 6 years could cost less than a cup of coffee!

## HOW TO SECURE YOUR BUNKER OR SHED!

Simply contact one of representatives who will be happy to assist you with your purchase and can design a bunker or shed that meets your needs.

Our exclusive lockdown system allows the bunker to be sealed and ready for gas treatment and provides a proven secure barrier to weather and pest threats.

Grainmaster steel bunkers and grain sheds offer unbeatable **value for money** and **security** for the grower wishing to maximise profits. Our world wide patented designs have been extensively tested in the field and are engineer certificated.

## Grainmaster Bunker Advantages!

- Bunkers & sheds available in a variety of sizes.
- Customised storage solutions available.
- Shed/bunker combinations a speciality.
- Quick turn around from concept design to completion.
- Fully qualified erectors available.
- Links with qualified and experienced contractors to assist with pest control & grain management.
